TRACK TECHNIQUE CONTENTS

The Journal of Technical Track & Field Athletics

No. 1, September, 1960
Speed or Endurance Training
Basic Mechanical Principles of Running
Oxygen Debt Mechanism
Discus Throw
Review of Selected Mechanical Principles
The Tow Method--Training of the Future?
Training & Technique of Soviet Hop-Step-Jumpers
Ray Norton--How He Trains
Ten Principles of Training

No. 2, December, 1960
Pyotr Bolotnikov--How He Trains
Distance Training by Arthur Lydiard
Bill Baillie--How He Trains (Lydiard Athlete)
Mechanics of the Shot Put
High Jumping Style of Robert Shavlakadze
Mastery of Javelin Throwing Technique
Shin Splints Treatment
Pre-Event Nutrition
Gert Potgieter--How He Trains

No. 3 March, 1961
Bruce Kidd--How He Trains
Weight Training for Young Trackmen
Otis Davis--How He Trains
Teaching Beginners to Pole Vault
Race Walking
Concepts of Discus Technique

No. 4, June, 1961
Effectiveness of Twice-A-Day Training
Highest Jump in History--Brumel Over 7'4½"
Fundamental Skills in Hammer Throwing
Front Runners vs. Big Kickers
Broad Jumping
Teaching Beginners to Hurdle
Armin Hary's Training
Weight Training for Runners
George Kerr--How He Trains
Bobby Morrow--How He Trains

No. 5, September, 1961
A New Lift for the Sprinter
Forward Lean in Sprinting
Teaching Beginners to High Jump
Problems Involved in the Training of Soviet High Jumpers
Dyrol Burleson--How He Trains
Tom Sullivan--How He Trains
Psychological "Tune-Up" of the Athlete
Pole Vault Questions and Answers
Hammer Notes
Fiberglass Pole Vault Problems
The Athlete and Adaptation to Stress
Pulled Muscles, Why?

No. 6, December, 1961
Jay Silvester--How He Trains
Four or Five Hammer Turns?
Isometric Exercises and Their Value
Distance Running in Hot Weather
The Importance of the Lead Leg in Hurdling
Transistory Hop Shift Method of the Javelin
Hammer Notes
Relay Questions and Answers
A Natural Way of Shot Putting
Athlete and Adaptation to Stress, Part II
Dave Power--How He Trains
Warming Up for the Sprint Start
Practical Ratios for Triple Jumpers

No. 7, March, 1962
Vaulting with Fiberglass Poles
Experimental Isometric Program for Track
Mechanics of Jumping
Putting the Shot for Beginners
Jay Silvester--Action Analysis
Arthur Lydiard's Training Methods
Hal Connolly--How He Trains
Hammer Notes
Athlete and Adaptation to Stress--Part II
Middle Distance Running
Frank Budd--How He Trains

No. 8, June, 1962
Mihaly Igloi's Training Methods
Middle Distance Running--Part II
Arthur Rowe--Action Analysis
Hammer Notes
Modern Techniques in Training Methods
Javelin Questions and Answers
Last Strides in Broad Jumping
Lee Calhoun--How He Trains
New Hope for Chronic Achilles Tendon Sufferers

No. 9, Sept., 1962
Rotation, A Vital Factor in Technique
Gaston Roelants--How He Trains
Kazimierz Zimny--How He Trains
Aubrey Dooley--How He Trains
Physiological Principles in Training
Foot Contact at the Instant of Release in Throwing
Hammer Notes
Middle Distance Running
How to Teach the Triple Jump
Visit With Dr. Woldemar Gerschler
Sprint Questions and Answers
Book Review, The Mechanics of Athletics
Muscular System

No. 10, December, 1962
Training Experiment of Sin Kim Dang
On Beginning a Strenuous Exercise Program
What About the Eastern Cut-Off?
Muscle Fatigue and Relationship to Injury
Phil Mulkey--How He Trains
Sprint Questions and Answers
Rotation, a Vital Factor in Technique
Glenn Davis--How He Trains
Use of the Fiberglass Pole
Teaching Beginners to Broad Jump

No. 11, March, 1963
Pentti Nikula--How He Trains
Sprint Start Speed Factors
Injuries Due to Faulty Style
Training Procedures for Development of Muscle Power
Discus Throw Points to Ponder
Action Analysis of Klaus Beer
Rotation--A Vital Factor in Technique
Manfred Matuschewski--How He Trains
Dan Waern--How He Trains
Breath Control in Running

No. 12, June, 1963
Rotation--A Vital Factor in Technique
Shot Put Questions and Answers
Long and Triple Jumping
John Pennel--How He Trains
Role of the Coach in Injury Prevention
Answers to Pole Vault Questions
Tony Sneazwell--How He Trains
General Warmup Exercise Program
Witold Baran--How He Trains
Circuit Training

No. 13, September, 1963
Interval Training
The Last Four Steps in The Broad Jump
An Approach to Analysis of Fiberglass PV
Shot Put Questions and Answers
Bibliography of Track and Field Articles
Rink Babka--How He Trains
A Survey of Triple Jumping

No. 14, December, 1964
How I Train the Yugoslavian High Jumpers
Explosive Power for the Shot Put
Rotation--A Vital Factor in Technique
Hammer Throwing--G. Simonyi
Should Athletes Drink Beer?
Modern Approach to Distance Running

No. 15, March, 1964
Coaching the Relay Races
Thoughts on Sprinting
Tom O'Hara--How He Trains
Gerry Lindgren--How He Trains
Hammer Throwing
Use of Fiberglass Pole Vault Trainer
Rotation--A Vital Factor in Technique
Points to Ponder--Hurdles
Triple Jump Exercises
Jay Silvester's Discus Form
C.K. Yang--Vaulting Profile

No. 16, June, 1964
Relaxation in Endurance Running
Weight Training for Athletes
Hammer Throwing
Biorhythms and the Athlete
New Relay Technique
Teaching Beginners in the Fiberglass Era of Vaulting
Brian Sternberg--Vaulting Profile

No. 17, September, 1964
ABCs of Fiberglass Vaulting
Teaching Beginners to Put the Shot
Mechanics of Arm Action in Running
Weight Training for Athletes
Mechanics of the Discus
Hurdles Reference Chart
Training for Middle and Long Dist. Running
Prevention of Shin Splints
Training for Triple Jumping
An Approach to Cross Country Pace

No. 18, December, 1964
Early Season Warmup
Mihaly Igloi: The Man and the Coach
Review of High Hurdle Technique
Teaching Beginners to Triple Jump

Answers to Fiberglass Vaulting Questions
Weight Training for Athletes
Running Indoor Curves
Take Off Technique for the Straddle
An Appraisal of Interval Training

No. 19, March, 1965
Ron Clarke—How He Trains
Sprint Relays
Crossing the Bar from a Left Foot Take-Off
Significant Deviations from Correct Discus Technique
Weight Training for Athletes
An Appraisal of Interval Training
Psychology in Hammer Throwing
Fiberglass Vaulting Technique
Landing in the Long Jump
Javelin Technique

No. 20, June, 1965
How to Look Back While Running
Nutrition of the Athlete
Pace Judgment and Stride Plan in 400 Meter Hurdles
Winter Conditioning and Training for TJ
Cinematographic Analysis of the Discus
First Aid Management of Muscle Injuries
Mike Larrabee—How He Trains
Coaching Fiberglass Vaulters in High School
An Appraisal of Interval Training

No. 21, September, 1965
Teaching Fiberglass Vaulting
Discus and Wind
Effects of Speed and Overdistance Training on Young Runners
Length of Flight in the High Jump
Photo Sequence of Ludvik Danek
An Appraisal of Interval Training
Preliminary Conditioning of H.S. Sprinters and Hurdlers
Teaching Beginners to Vault in 10 Easy Steps
Nutrition of the Athlete
The Twisting High Jumper
Hammer Throwing Principles

No. 22, December, 1965
One Style of Sprinting
An Appraisal of Interval Training
Discus Technique Discussion
Vitold Kreyer—Photo Sequence
Michel Jazy—How He Trains
Hammer Throwing Principles
440 Yard Relay Checkmark Chart
Shin Splints—Etiology and Treatment
Nutrition of the Athlete

No. 23, March, 1966
Hammer and Shot Flight Angles and Velocities
Nutrition of the Athlete
Kip Keino's Training Profile
Bill Crothers' Training Profile
Jurgen May's Training Profile
An Appraisal of Interval Training
Development of Hurdle Endurance
Hammer Throwing
A Javelin Refutation
The Decathlete
Striding Movements During Pushoff
Fiberglass Vaulting

No. 24, June, 1966
Art of Baton Passing
Interval Sprint Training
Discus Throwing
Igor Ter-Ovanesyan—Photo Sequence
Javelin Throwing Techniques of World Class Performers
Basic Running Form
Hurdles Chart
Nutrition of the Athlete
Advantages of Fiberglass Poles
Long Jump Technique Analysis
Blaine Lindgren—Photo Sequence
Shot Put Questions and Answers
An Appraisal of Interval Training
Hammer and Shot Flight Angles and Velocities

No. 25, September, 1966
Running the Curve
Stroke and Heat Exhaustion in Athletics
High Jump Exercises
Specific Fitness for Middle Distance Running
Motivation
Telescoping—The Acid Test of Dist. Running
Nutrition of the Athlete
An Appraisal of Interval Training
Pentti Nikula—Photo Sequence
Speed and Path of the Hammer
Cross Country Training
"Second Wind"

No. 26, December, 1966
Starting in the High Hurdles
Vaulting with Flexible Poles
Nutrition of the Athlete
An Appraisal of Interval Training
Introduction of High Jumping
Gyula Zsivotzky's Training Profile
First Principles of Running Training

No. 27, March, 1967
Re-evaluation of Isometric Training
High Jumping—with Photos
Relays with Speed
Load and Intensity in Women's Training
Analysis of European Javelin Throwers
Maximum Explosive Effort
Sprint Hurdling
Track and Field in East Germany
Suppleness in the High Jump
Ter-Ovanesyan on the Long Jump
An Appraisal of Interval Training

No. 28, June, 1967
An Appraisal of Interval Training
Code of Tactical Commands
Mechanics Without Tears
Finnish Javelin Throwing
Temperature Changes in Runners
Pole Vault Technique
Future of the One-Lap Hurdles
Improving Spring in the High Jump

No. 29, September, 1967
Polish Triple Jumping
Hypnosis in Sport
Sprint Chart
Shot Put Questions and Answers
An Appraisal of Interval Training
Water Jump Clearance Analysis
Use of Hormones as Anabolic Agents
Rex Cawley—How He Trains

No. 30, December, 1967
Modern Concepts of Middle Distance Tng.
Hamstring Injuries
Training of the Long Jump
Javelin Aero-Dynamics
Discus Chart
Bob Schul—How He Trains
Strength and Flexibility Exercises for T&F
An Approach to the Shot Put
Observing Mihaly Igloi
Application of Learning to T&F Events

No. 31, March, 1968
Jim Ryun—How He Trains
Kinesiology in T&F Coaching and Training
One-a-Day or Two-a-Day?
Specialized Exercises for Shot Putters
Mechanical Features of the Hammer Release
High Jump Chart
Training and Diet for Track and Field
Examination of Doping in Sport
Planning Hurdles Training
Application of Learning to T&F Events

No. 32, June, 1968
Abdominal Strengthening
Derek Clayton—How He Trains
Application of Learning to T&F Events
Analysis of the Trajectory of the Shot
Treatment of Achilles Tendons
Javelin Lessons from Budapest
Relays Chart
Middle Distance Training
Psychological Aspects of Training
Explosive Action in the Vertical Direction
Mechanical Analysis of the High Jump

No. 33, September, 1968
Javelin Throwing, Russian Style
Bend Running in the Quarter Hurdles
Mechanical Energy in Pole Vaulting
Some Psychological Traits of the Successful Coach
Foot Problems

No. 34, December, 1968
The High Jump
Theoretical Examples of Sprint Training
Relationship of the Mental to the Physical in Athletics
What is the Basis of Technique?
Rhythm Run-ups for Long and Triple Jump
Dynamics of Hammer Throwing
Problems of Training in a Modern Society

No. 35, March, 1969
Some Fundamentals of Running Technique
Mechanics of Walking and Running
Influence of Interval Training on Blood Sugar Level
A "Hurry-Up" Program for Developing Weightmen
Steeplechase Training and Technique
Pole Vault Chart
Strength Training for Sprinters
Tips for the Beginning Official Starter
"Don't Be Afraid of a Fast Start"
The Double-Turn Throw
Training of Czech Women Middle-Distance Runners
Ken Moore—How He Trains
Training and Muscle Fiber

No. 36, June, 1969
High Jumping (35-page article by V.M. Dyatchkov, USSR, coach of Brumel, etc.)

No. 37, September, 1969
Towards Identifying the T&F Competitor
Track Performance Related to Self-Concept and Aspiration Level
Triple Jump Technique
Some Aspects of the Non-Vusual Relay Pass
Analysis of the Discus Throw
A Physiological Basis for Interval Training
Some Observations on the High Hurdles
Perfection of Shot Put Technique
Effect of a Liquid Meal on Track Performance

No. 38, December, 1969

L.S.D.—Long Slow Distance
Hypnosis in Track & Field Coaching
Training of Polish Women Sprinters
Throwing the Javelin
Juan Martinez—How He Trains
Characteristics of the Running Stride
Foot Placement in Running
Long Jump Chart
Indoor Training for Jumpers & Sprinters
400-m. Hurdles Training and Technique
Anabolic Steroids: Effects on Strength Development
Foundations of Training Planning
Experiment with Ballet
Forecast-Review of Women's 100-meter Hurdles
Comparison of Oxygen Consumption

No. 39, March, 1970

Standing Start Modernized
Poles and Pits
Principles of Training Middle-Distance Runners
Analysis of Dallas Long's Shot Putting
Review of Modern Pole Vaulting
Vertical Carry in Pole Vaulting
Development of Young Hammer Throwers

TRACK TECHNIQUE CONTENTS (continued)

No. 63, March, 1976
Shot Put Drills for Preps
From the Desk of Fred Wilt—Plyometrics
Discus Training Schedule for Girls
Higher Heights with the Straddle
Sprinting a la Finland
Keeping the Injured Athlete Fit
Two-Hand Snatch—An Aid to Field-Eventers
Personality Profile of the HS Coach
Variations in Periodization
Penn State Training Program
How They Train: Tom Woods, Ken Popejoy, Joao Oliveira, Garry Bjorklund, David Jenkins, Earl Bell
Correct High Hurdling Technique
Mechanical Analysis of the Pole Vault

No. 64, June, 1976
Safety Factors in Weightlifting
How Much High Intensity Sprint Training?
From the Desk of Fred Wilt: Plyometric Exercises
Sample Aerobic to Anaerobic Ratios
Year-Round Decathlon Training Schedule
Power: What It Is and How to Use It
Approach to the 440 Sprint
Program for Distance Runners
Tips on Sprinting by Leroy Walker
Training for Marathoning
How They Train: John Walker, Tommy Haynes, Craig Virgin, Rudy Chapa, Ralph Mann
Testing the Effects of Bee Pollen
The Hows of Altitude Training
Dual Resistance Exercises

No. 65, September, 1976
Australian Sprint Program
Teaching the Discus Throw
Weight Training for Prep Throwers
Speed Deviations in Middle Distance Running
Bibliography of Research on Women in Sport
Personality Traits of Cross Country Runners
Macrocycles
Hurdling Mechanics for the Female Athlete
"Flat" Triple Jump Technique
How They Train: Mac Wilkins, Kent McDonald, Dick Buerkle, Geoff Capes, Danny Seay, Mike Boit
Spasm Theory of Muscular Soreness
Flexibility Exercises

No. 66, December, 1976
High Hurdling Tips
Speed-Building Drills
Training Young Middle Distance Runners
Book Reviews
Body Fat and Distance Running
How the Athlete Views the Coach
Discus-Style Shot Put
Olympic Hammer Throw Analysis
Two Common Javelin Technique Faults
How They Train: Dave Roberts, Don Kardong, Kate Schmidt, Pat Davey, Mike Durkin, Herman Frazier
Strength-Gain Nutrition, Part I
Stretch Reflex: What Is It?
Enzyme Changes and Endurance Training
Choosing a Shoe

No. 67, March, 1977
What to Look for in the Prep Vaulter
Best Tests for Gauging Running Fitness
Sprint Training for Middle Distance Runners
Standing or Crouch Start for Beginners?
Improving Race Walking Action
Touchdown Charts for the Hurdles
Training with Light and Heavy Implements
Discus: Exercises for Mastering the Leg-Action
How They Train: Duncan Macdonald, Larry Myricks, Doug Brown, Fred Dixon, James Barrineau, Richard George
Shot Putting Styles—Capes vs. Feuerbach
How to Make a Crooked Vaulting Pole
Guide for Meet Announcers
Strength-Gain Nutrition, Part II

No. 68, June, 1977
Rear Leg Drive in Sprinting
Distance Running's Enemy No. 1: Overtraining
Sprint Relay Drills
Hill Training Revisited
Weight Exercises for Throwers
Maximum Speed of Women Sprinters
Caloric Needs of the Thrower
Matching Athletes and Events
Training Theory: Adaptation and Loading
How They Train: Ivo Van Damme, Mel Embree, Thom Hunt, Willie Banks, Deby LaPlante, Tony Darden
The Long Jump: Technique Analysis
Mechanics of the Flop
Olympic Commission Report on Steroids
Why Blood Packing Does Not Work

No. 69, September, 1977
Newport Harbor Shot Program
Teaching Preps to Hurdle
Tips for Discus Throwers
Conditioning Exercises for Throwers
Borzov's Unique Start
Hungary's World-Record Javelin Program
Warmup with a Cold Shower?
Prep Cross Country Organization
Distance Training for Girls
How They Train: Derald Harris, Steve Lacy, Larry Jessee, Gary Tuttle, Rod Ewaliko, Tadeusz Slusarski
Arm Action in the Flop
Training vs. Straining
Biorhythms and Race Performance

No. 70, December, 1977
Young Athletes and Endurance
Decathlon Training for Beginners
Proper Nutrition for the Marathoner
Trampoline Training for the Triple Jump
Women and the Spin-Shot Technique
Coaching Methods for Young Athletes
Photo Sequence of Hannu Siitonen (javelin)
Physio-psychological Distance Training
How They Train: Clancy Edwards, Gail Olson, Ken Stadel, George Malley, Milan Tiff, Matt Centrowitz
Application of Yoga Techniques to Track & Field
Resistance Exercises and Muscle Fiber Typing
Thoughts on Steeplechasing
